SLC 51C Battery Charger

Product Characteristics and Benefits

- 230VAC Single phase input supply, 50/60 Hz Frequency
- Pulse profile charging
- Electronic controller with SNL250 with 8 mm LED
- 800 cycles charge memory
- Availability of external accessories like AIR PUMP, top up and remote signal
- The charging parameters are programmable via software using USB communication port

Product Range

Model	Ah Battery 7 ÷ 8 h	Mains
24V / 30A	150 - 165	230V
24V / 40A	200 - 220	230V
24V / 50A	250 - 275	230V
24V / 60A	300 - 330	230V
24V / 70A	350 - 385	230V
48V / 30A	150 - 165	230V
